Gear Storage

This gear group has **10GB** of storage per gear.

Gear storage space is used for code, logs, cache, config files, and databases. **Gear storage is only accessible to the gear it's associated with**, and isn't able to be shared between gears. User files should be kept in shared storage.

[Read more about storage in the developer center.](#)

Check your usage

You can check your storage usage by ssh-ing into your app and running the quota command.

```
$ ssh 05275ea4e94b4432ba5edd2afd8b35d2@AppName-panda.rhcloud.com
> quota
```

Manage storage

Gears come with 1GB of storage and additional storage is \$0.0013 per GB per gear hour.

\$0.013 per gear hour
approximately **\$10/month** per gear
if used continuously

Save Changes

We're adjusting storage for your gear

This may take up to a minute....

Gear Storage

You added 1GB of storage to this gear group.

UNDO

This gear group has **11GB** of storage per gear.

Gear storage space is used for code, logs, cache, config files, and databases. Gear storage is only accessible to the gear it's associated with, and isn't able to be shared between gears. User files should be kept in shared storage.
